

## System functions

On the Login screen it is possible to change the URL of the LS Omni server that the app is supposed to communicate with, change store ID, Terminal ID, update frequency, batch size, enable full replication and adjust app timeout.

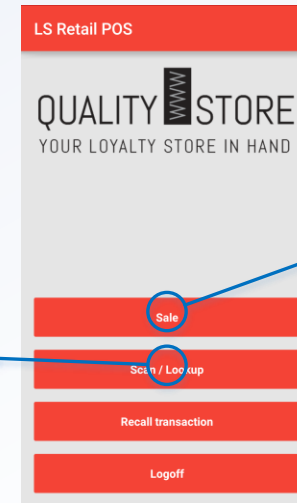

If you already have credentials to logon and have the correct server url, you can proceed with the login.

If you are missing login credentials, contact your LS NAV administrator.

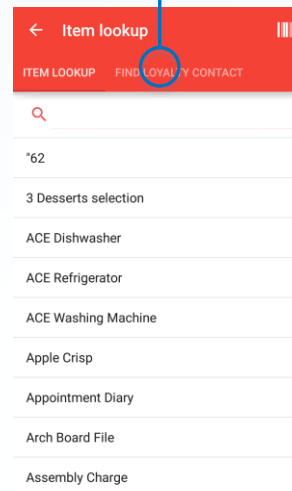

## Account functions

When successfully logged on, this screen appears

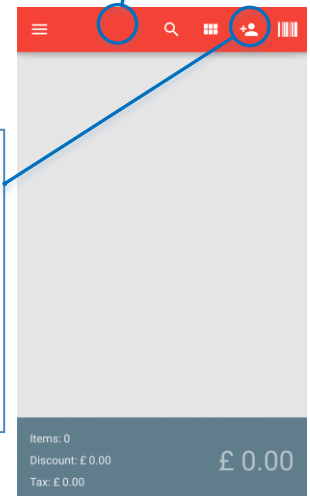

If you tap on Scan/Lookup, you enter the Item lookup screen. From this screen you can find loyalty contacts by tapping on the „Find loyalty Contact“ tab. Under that screen, you can also create loyalty contact.

When tapping on sale, you enter the transaction screen.

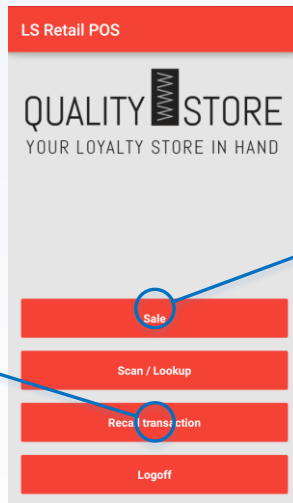

If you tap on the contact icon, you will enter the loyalty & customer screen. From there you can search for loyalty & customer contacts and also create Loyalty contacts.

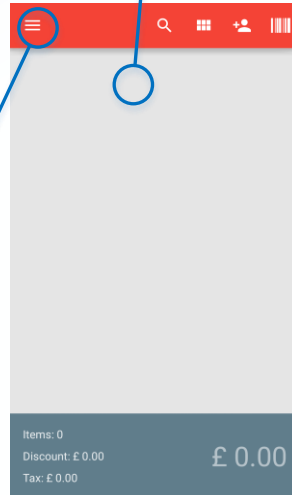

## App functions

You can recall suspended transactions by tapping here. Select the relevant transaction from the list.

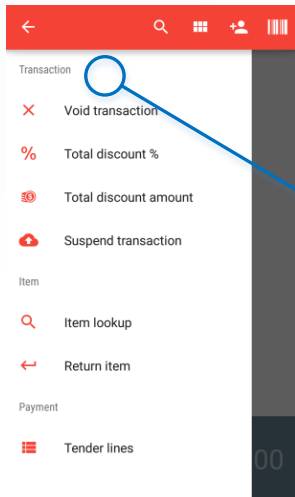

Tap on Sale and you enter the transaction screen where you can search, browse and scan for items.

Tap on the menu icon, but from there you can:

- Void transaction
- Add discount
- Suspend transaction
- Lookup item
- Return item
- See active tender lines

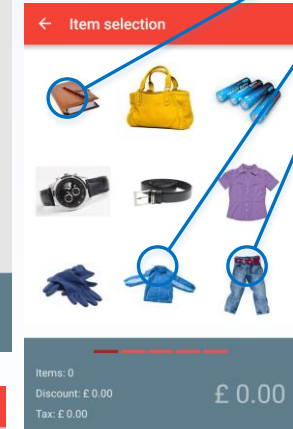

## Item functions

Tap on the item icon and you can browse items.

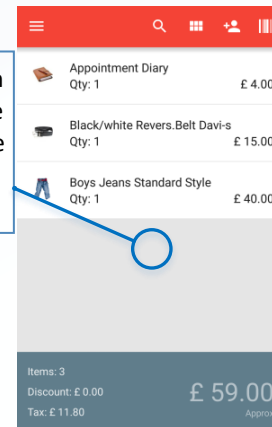

Tapping on the search glass icon enables you to search for items

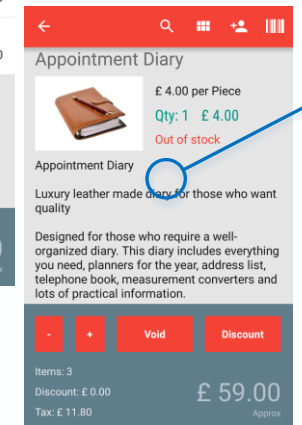

Tap on items to add them to the transaction screen.

Once tapped on items, they are displayed on the transaction screen.

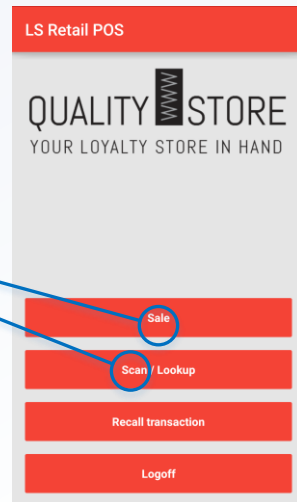

Tapping on item takes you the item detail screen. From there, you can change quantity if items, void and add discount.

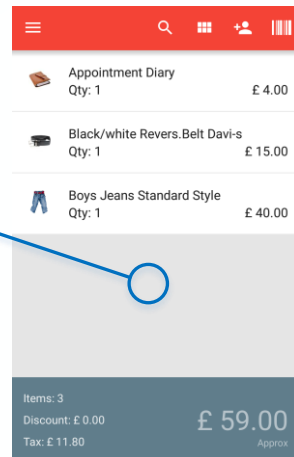

## Scanning items

You can recall suspended transactions by tapping here. Select the relevant transaction from the list.

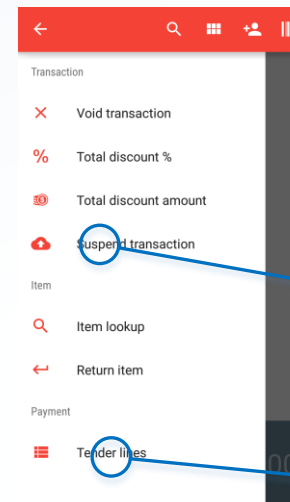

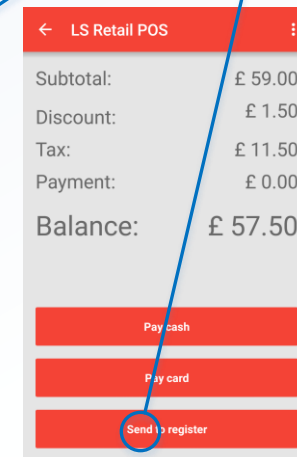

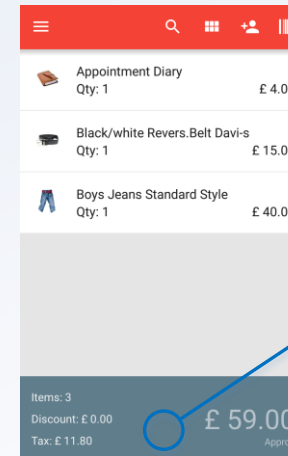

If scan is successful, the scanned items are added to the transaction screen

## Suspending and Recalling transaction

If you need to send the transaction to a register (suspend the transaction) tap on the price field to enter the checkout screen and from there you can tap on the Send to register button. You need to add an identifier.

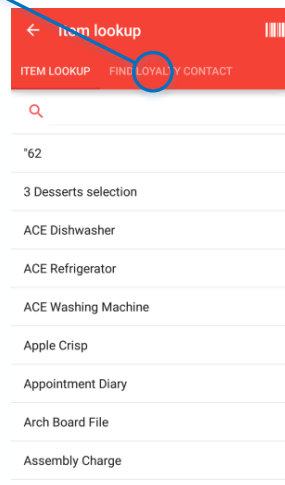

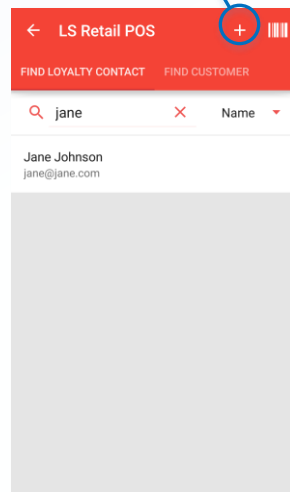

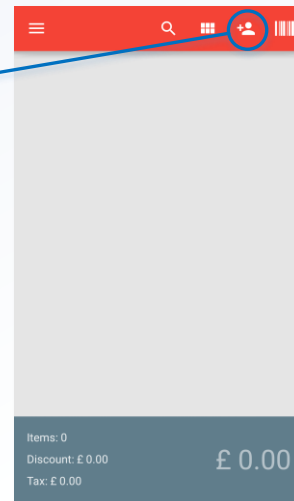

To recall the suspended transaction, tap on the menu icon on the home screen and then tap on Suspended Transaction and from there you can select the correct transaction to recall.

Here you access Active tender lines for transaction.

## Adding Loyalty contact or customer

On the transaction screen you can add a loyalty contact or a customer to the transactions.

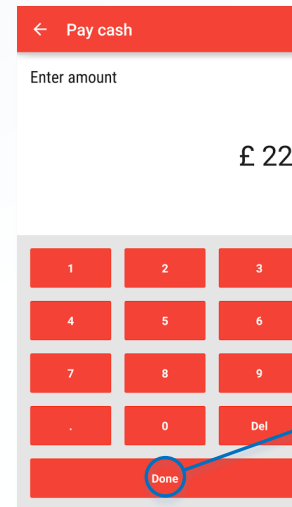

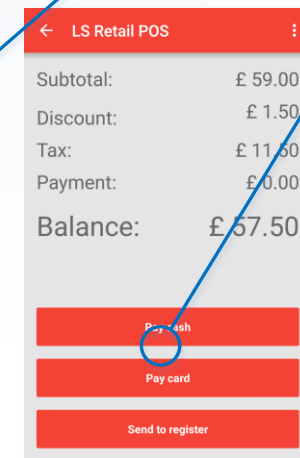

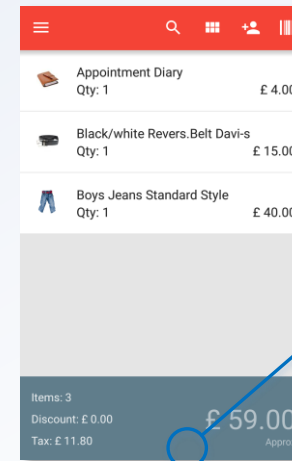

Search for the Loyalty contact / Customer or create a Loyalty contact. It is also possible to create a Loyalty contact by tapping on the 'plus' sign.

## Notification functions

Once items have been added to the transaction screen, you can check out by tapping on the price field.

Select payment method

Enter amount and tap on Done to complete the checkout process (You will be asked if you would like to print a receipt)
