

# LS One 2016– Requirements

---

## 1 Hardware requirements

- Processor: 2 GHz or faster.
- 4 GB RAM.
- Hard disk: 7 GB free space (to take advantage of maximum data storage capabilities of SQL Server Express 2012).

Please note that this is in addition to the free disk space needed for the operating system.

## 2 Software requirements

Before installing the LS One components please make sure that you have administrative privileges on the computer where you plan to install the application. In order for the programs to operate, the following software prerequisites must be met:

- Any of the following operating systems:
  - Windows 7 sp1
  - Windows 8
  - Windows 8.1
  - Windows 10
  - Windows Server 2008 sp2 / Windows Server 2008 R2 sp1
  - Windows Server 2012 / Windows Server 2012 R2
- Required frameworks:
  - .NET Framework 4.6.1

The following software is not required but recommended for the terminals:

- The currently installed hardware's OPOS drivers.
- To run the POS in offline mode: SQL Server Express 2012 or SQL Server 2012 or later
